

FOR IMMEDIATE RELEASE

KINGSTON, ON., July 5, 2022. - We are pleased to announce that Daniel R Shea & Associates Systems Group Inc (DRS) has been acquired and will be working alongside a well established group of companies including Server Cloud Canada (SCC), Cloud Metric Inc. (CMI), and Telecom Metric Inc. (TMI).

Our team is growing with new expertise and capabilities, greatly enhancing the overall services of our company. Our priority is to not only ensure that we maintain continuity and our current quality of service but also to provide our valued clients a more robust set of products and services to meet their ever growing technological requirements. For you, this manifests as more support staff, with more in-house specialties, making for a smoother and more responsive support experience.

DRS, specializing in on-premise managed infrastructure, now operates as one of four complimentary technical companies offering integrated service to all of our valued clients. The group of companies, now including DRS, will work together, each providing their own unique contributions, to give our customers a complete solution.

Server Cloud Canada is a private cloud environment, entirely Canadian owned and operated, compliant with all Provincial and Federal privacy laws. With nine evenly distributed data centers throughout Canada, the redundant platform enables automatic failover and backup and reduces the risks involved with internal IT management.

Cloud Metric specializes in managed cloud services, equipped with a team of experts in cyber security, cloud migration, and cloud management. CMI offers a suite of features such as cloud security, cloud backup & disaster recovery, monitoring & reporting, as well as Microsoft 365 licensing and support.

Telecom Metric Inc. provides secure, cloud based, Unified Communications for workplace environments that includes using Microsoft Teams as your phone system through the use of Direct routing. With a focus on security, TMI offers end-to-end encryption, active monitoring, and 24/7 support.

We look forward to introducing our new partners and our new suite of products and services.

-The DRS Team
